

Topic Project - Let's Get Creative!

This week, your challenge is to **design, decorate, and build your very own boat!** Use any materials you like and make it as colourful, creative, and exciting as possible.

Bring your boat into school when it is finished. We will launch all of our boats in the water and see which one can **stay afloat the longest!** 🚤

🐠 Handprint Sea Creatures

Use paint and your handprints to make sea animals like fish, octopus, or starfish. Add eyes and details with a pen. Make as many as you can!

Maths

🧮 Number Bond Challenge! 🧮

Choose a number from **1 to 10** and see how many different ways you can make it. For example, **5** can be made with **2 and 3**, **4 and 1**, or **5 and 0**.

You can show your ideas by:

- drawing pictures,
- using toys, counters, or blocks,
- writing number sentences,
- or making a colourful poster.

Can you find **all the different ways** to make your number? 🌟

Bring your work into school and be ready to share your number discoveries with the class. 😊🧮

Heatwave Work

Please make sure that your letter and number formation is correct.

Double-check that you are starting in the right place, moving in the correct direction, and keeping your writing neat. Once you have finished, bring your completed practice into school so we can review it together!

English

Penguin Adventure Homework! 🐧

We have been reading *Lost and Found*. Now it's your turn to bring the story to life!

Draw a picture of the penguin from the story. Make sure to include lots of detail. Then, write four exciting sentences about him. You should include:

- What he looks like
- Where he lives
- What he likes to do

Try to make your writing as neat as possible, and remember to use capital letters, full stops, and your best handwriting!

📖 Mini Ocean Book

Make a booklet with 3–4 pages showing different ocean animals, drawn and labelled by the child.
